Proposal No. P1785.23 Range Security

The attention to bidders submitting proposals for the above project is called to the following addendum that contains responses to all questions submitted by the prospective bidders. The items set forth herein, whether of omission, addition, substitution or clarifications are all to be included in and form part of the proposal submitted. This addendum shall take precedence or provide clarification.

All questions are sorted numerically as received from bidders and the response provided follows directly after each question submitted.

The above referenced Addendum follows.

QUESTIONS AND ANSWERS:

Q1. Will the budget be increased? That number doesn't even get power down to the gate.

A1. The budget is not able to be increased. We understand that our options may be limited due to budget constraints. Page 21 has been updated to request separate pricing for the gate portion and the top of hill portion since we may not be able to have the entire project completed. Please replace the current page 21 of the bid document with the attached.
