Job Location:	

1. Curbs, sidewalks, and driveway aprons shall be constructed in accordance with the Public Ways Construction Standards. All concrete curbs shall be MDSHA Mix No. 3 (3500 PSI)
2. The property owner repairing and/or replacing curb, sidewalk, or driveway aprons shall be responsible for any damage caused to the roadway facilities or private property by himself, his representative, his contractors or subcontractors, or their agents.
3. Integral construction of curbs and sidewalks shall not be permitted. Curb and sidewalks shall be formed, poured, and constructed separately.
4. All new sidewalks adjoining City streets shall have a minimum width of five (5) feet, and shall conform to the Public Ways Construction Standards. Replacement sidewalk may match existing width, but shall never be less than three (3) feet in width.
5. At utility poles or other sidewalk obstructions, sidewalk shall be installed to provide a minimum of three (3) feet of clear sidewalk. Sidewalk shall be widened by the Permittee to provide clearance.
6. South Prospect Street: due to the historic nature of this street, special rules apply. See Chapter 216.21 of the City Code.
7. The project shall not be idle for more than 15 calendar days after portions of the existing sidewalk or curb are removed. Permittee must show reasonable progress in completing the work under this permit.
8. Violations of this permit shall be subject to the penalties outlined in Section 216.25. In addition, it shall be the obligation of the property owner to correct any non-compliant or defective work performed under this permit. Failure to do so in the time allotted by the City shall constitute a nuisance and may be abated per Section 216.24.
